

ScopeTemplate

```
classDiagram
    class ScopeTemplate {
    }
    class PicoScope {
    }
    PicoScope --|> ScopeTemplate
```

The diagram illustrates a class hierarchy. At the top is a box for 'ScopeTemplate' with two empty slots. Below it is a box for 'software.chipwhisperer.capture.scopes.PicoScope.PicoScope' with three empty slots. A blue arrow with a hollow triangle head points from the top of the 'PicoScope' box to the bottom of the 'ScopeTemplate' box, indicating that 'PicoScope' inherits from 'ScopeTemplate'.

software.chipwhisperer.capture.scopes.
PicoScope.PicoScope
